### SPELLING OF SPANISH NAMES.

In Spanish and Mexican California a standard spelling of names did not exist either for general words or for proper names; some spellings became fixed in time, yet differed from the Castilliam, Posa replaced Poza, Sanjon instead of Zanjon, Vaca instead of Baca, Verdugo for Berdugo. Also on the same page or in the same expediente or in the same land case a word may be spelled more than one way -- Berreyesa is also Berrelleza, Berreyeza, or Berreyezza.

### NAMES OF THE GRANTS.

Most grants had names, sometimes several. This index gives the names as found in these documents together with cross-references to other names found in these documents, in the land papers, and in recorded deeds.

### THE COUNTIES.

The present counties came into existence in 1850 and later. The county or counties in which each grant in California is now located have been taken from a separate study of the Spanish and Mexican land grants.

### THE INDEX.

There are three indexes for the documents:

1. By expediente numbers. The documents are arranged in numerical order; the volumes themselves serve as the index.
2. By grant names. The master entry is under the name found in these documents; other names found for these grants are cross-referenced to the master entry.
3. By names of grantees and petitioners. The person is listed as petitioner if no grant was made at all or to this petitioner; as grantee it is understood that he was the petitioner unless otherwise indicated. In land litigations the plaintiffs and defendants are indicated together with the lands or grants concerned. The index does not include all the names of persons appearing in the documents -- only the names of petitioners and grantees, plaintiffs and defendants.

### THE GRANTORS.

The grantors as found in these documents for both Alta and Baja California are:

1. Viceroy
2. Mexican president
3. Mexican congress
4. Governors -- they are listed below
5. Comandante of army
6. Comandante of presidio
7. Commission on granting of lands -- a committee of the Departmental Assembly
8. Prefects
9. Alcaldes
10. Ajuntamientos or pueblo councils
11. Comandante of the Northern Frontier. General Vallejo issued several provisional grants pending the concession by the governor.
12. Sutter's General Title. A general title issued to Sutter to be used by him in making grants to serve until the titulo could be issued by Governor Micheltorena.
13. Priests. A few grants were signed by the mission fathers.

## INDEX OF

### SPANISH LAND GRANT DOCUMENTS.

#### THE ORIGINAL LAND GRANT PAPERS.

Since the early <sup>18</sup>50's the Spanish Archives, of which these papers were a part, were in the custody of the U. S. Surveyor General for California, in San Francisco, until the office was transferred to Glendale in 1932. The land grant papers were kept in a large safe, and so survived the 1906 San Francisco fire. Some of the papers were very badly charred; in 1932 they were sent to the National Archives in Washington for repairs and an attempt to photograph the badly charred papers. In all probability these original papers will be preserved in the National Archives; it is anticipated however, that photostats will be returned to California.

#### THE CERTIFIED COPIES IN SACRAMENTO.

On March 20, 1866 -- 1865-66 Statutes 312 the legislature provided for the copying and translating of the land grant papers; \$8,000 were appropriated for the task and two years later another \$8,000 were granted. The certification of the work dates from September 10, 1866. to May 23, 1871. These documents include the land papers.

##### A. For California.

1. Petitions and papers for lands not granted;
2. Papers for land granted;
3. Papers of land suits and land litigation;
4. General correspondence relative to land questions.

##### B. For Baja California.

1. Petitions and papers for land not granted;
2. Papers for lands granted.

#### THE CONTENTS.

The work is divided into three parts: 1. The land grant papers; 2. The Diseños; 3. Maps and surveys.

##### 1. The Land Grant Papers or Expedientes, in 8 volumes in Spanish and 8 volumes of translations.

- A. Expedientes 1 to 579 in volumes 1 to 6. From these were drawn the main body of papers used in the cases before the Board of Land Commissioners and in the courts. They were indexed by Jimeno and Hartnell.
- B. Filed Expedientes 1 to 187 in volumes 6 and 7. These were original documents filed with the Surveyor General.
- C. Deposited Expedientes 1 to 21 in volume 7. These were original documents deposited in the archives of the Surveyor Gen.
- D. Unclassified Expedientes 1 to 315 in volumes 7 and 8. These were unclassified orig. documents relating to the land grants.
- E. Titulos 1 to 108 in volume 8. These were copies of the title papers as recorded in the record book.
- F. Toma de Razon 197 to 322 in volume 8. These were copies of entries in this record book of 1844.

##### 2. Diseños in two volumes; Nos. 1 to 298 in volume 1. and 299 to 576 in volume 2. These are copies of the original Mexican land surveys found in the individual expedientes but are here bound in separate volumes rather than preserved in the individual expedientes to which they belong. The diseños are not complete; many had been lost before these copies were made. The diseño numbers in the volumes are the expediente numbers to which they belong. Diseños are mentioned in other documents than the "expedientes" but all existing diseños in this collection are found in these two volumes under expediente numbers only.

##### 3. Maps and Surveys in five volumes: "Surveys of original Spanish grants by U. S. Surveyor General." Some are undated and none are certified. They have not been indexed.
